PUBLIC NOTICE Department of State F-2009-0213

Date of Issuance - June 24, 2009

The New York State Department of State (DOS) is required by Federal regulations to provide timely public notice for the activities described below, which are subject to the consistency provisions of the Federal Coastal Zone Management Act of 1972, as amended.

The applicant has certified that the proposed activity complies with and will be conducted in a manner consistent with the approved New York State Coastal Management Program. The applicant's consistency certification and accompanying public information and data are available for inspection at the New York State Department of State offices located at One Commerce Plaza, 99 Washington Avenue in Albany, New York.

In F-2009-0213, Hudson Transmission Partners LLC is seeking approval from the U.S. Army Corps of Engineers, New York District, for the installation of a 345 KV submarine AC electric transmission line across the Lower Hudson River from Edgewater, NJ to the Consolidated Edison 49th Street sub-station in Manhattan, NY. The proposed cable will have a 660 megawatt capacity and is proposed to landfall in Manhattan between piers 92 and 94. Within New York State, the proposed cable will be entirely underground or underneath the bed of the Hudson River.

The major components of the project include:

Installation of a two temporary 100' x 30' open-ended rectangular cofferdams terminating approximately five feet above the river bottom and between 20'-30' below mean lower low water. One coffer dam will be within New Jersey waters and one will be within New York waters approximately 400' from shore.

Dredging of approximately 1,260 cubic yards of class "c" material from each coffer dam with an environmental dredge bucket and upland disposal of the dredged material.

Horizontal Directional Drill (HDD) installation of the proposed cable between the coffer dam sites and the proposed upland landfall sites.

Cable laying by barge along a 3.6 mile underwater route within the Hudson River.

Installation of the cable via jet-plow to a depth of 15 feet below current grade within the boundaries of existing federal navigation channels and 10 feet below current grade outside of the federal navigation channel.

Removal of the cofferdams and restoring the dredged area with clean sand.

The stated purpose of the proposal is "To meet the needs of the New York Power Authority for the New York City customers by

providing transmission capacity to new sources of power at prices that are economical, stable and predicable over the long term.”

Any interested parties and/or agencies desiring to express their views concerning the above proposed activities may do so by filing their comments, in writing, no later than 4:30 p.m., 30 days from the date of publication of this notice, or, July 24, 2009.

Comments should be addressed to the Office of Coastal, Local Government and Community Sustainability, New York State Department of State, One Commerce Plaza, 99 Washington Avenue, Albany, New York 12231. Telephone (518) 474-6000; Fax (518) 473-2464.

This notice is promulgated in accordance with Title 15, Code of Federal Regulations, Part 930.
